

Allsteel®

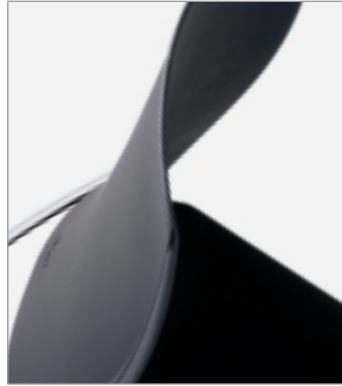

Designed to work. Built to last.

Hidden support.
Nimble's unique frame design positions this stacker's structural bar for optimal support, also allowing more legroom.

A truly swell shell.
Nimble's 100% recyclable polypropylene shell is contoured for comfort. All color choices resist fading with a UV inhibitor. And it's fire-code rated.

The comfortable stackable chair.

Nimble fits users of all shapes and sizes by providing support in all the right spots. Its contoured seat with waterfall edge reduces fatigue. Its flexible back allows natural shifts in seating posture. Nimble's unique frame design enables legs and feet to fit more easily under the chair.

Nimble has a clean-lined style that complements meeting rooms, conference areas, or the cafeteria. It's lightweight (14.5 pounds), yet offers the thickest and most durable stackable frame available.

Stackably convenient.
Nimble stacks up to 12 chairs high on the floor. Or, up to 36 chairs high on the optional cart.

Cover:
Seating shell: Deep Wisteria, Milky White
Frame finish: Chrome

Nimble offers a space-efficient profile. It moves, stacks, and stores with the greatest of ease.

Seating shell: Lime Green, Milky White
Frame finish: Chrome

Respecting the environment.

At Allsteel, we help our business partners achieve a positive environmental impact and understand that environmental consciousness can be gainful. This means ensuring that all materials balance performance and sustainability. Strong, high-quality products guarantee years of use and re-manufacturability.
