HON

4912, 4911 and 4913
in SS11 Black Leather

The styling flair of Convergence arms is seen in the choice of painted black aluminum or polished aluminum with soft urethane pad.

Each Convergence chair offers precise tailoring in luxurious leather or fabric.

A combination control offers pneumatic seat height and tilt lock adjustment.

Comforting thoughts. Symmetry of style.

Convergence executive seating is a unique blend of contemporary materials and superb comfort. Its symmetrical styling includes a choice of painted black aluminum or polished aluminum arms with a soft urethane pad. Subtle curves of the “scroll-style” seat back naturally cradle the shoulders as well as the lumbar area, while the waterfall seat edge removes pressure from the underside of the thighs for increased leg circulation. Convenient, adjustable controls personalize individual comfort needs. So no matter how long your thinking or working sessions last, you’re always seated at the optimum efficiency level.

Convergence seating: form and function in perfect symmetry.

Perfect tailoring. The high styling of Convergence seating is evident in the perfect tailoring of luxurious leather or fabric. Deep, pull-through seams add a touch of elegance to the scroll-style seat back and contoured seat cushion. Fit and finish are pointedly precise.

Perfectly suited. Convergence seating is not only ideal for executive and managerial offices but is an excellent choice for styling and comfort in conference and board rooms. Whether managerial mid-back or cantilevered based guest chairs are used, each brings its own distinctive look and feel.
