

Allsteel®

Essentials™
Collection

So much storage.

Drawers and shelves full of convenience, capacity, and durability that go above and beyond the usual call of duty, Essentials covers your most critical storage needs with the most practical features and options. Expand your existing capacity, add a new or convenient storage type, or develop your own unique storage system.

So many options.

Personal towers, pedestals, personal files, bookcases, overhead cabinets, and laterals are designed to meet just about every need, cover any capacity, and complement any interior. They integrate seamlessly into existing workspaces and establish their own tasteful presence. They even feel at home in common areas for shared storage.

1. Lateral file.

Perfect for shared storage or as a hanging file organizer in the workstation.

2. Personal tower.

Three storage options in one: wardrobe, personal storage, and hanging files in a single, space-efficient cabinet.

3. Pedestal.

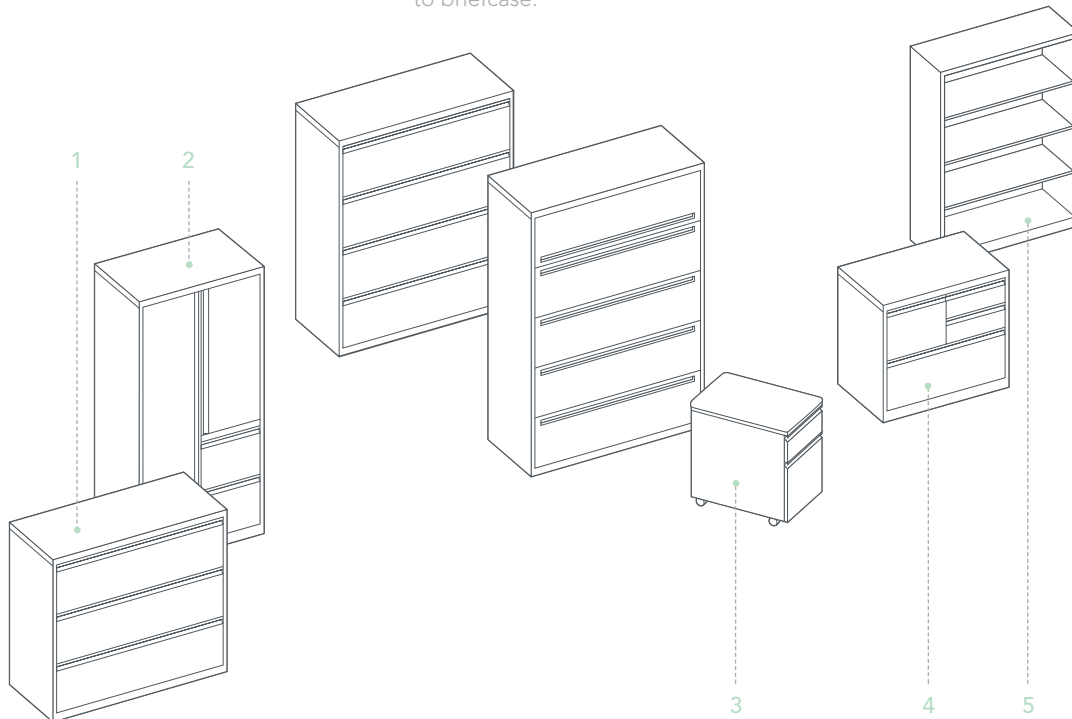

Multiple options, many uses. Worksurface support, freestanding, mobile, or suspended. Choose from four drawer configurations.

4. Personal file.

Three drawer sizes store everything from pencils to briefcase.

5. Bookcase.

Access open, shared storage in a visually compatible form.

Meet your solution.

You'll know it's the right one because you just can't live without it. Every office needs storage with great quality and optimum functionality. A complete line that's easy to specify, easy to integrate, and cost-efficient. Say hello to the Essentials Collection.

Simple, but essential.

Essentials components define their own sense of style, functionality, and durability. They are simple, but far beyond basic; cost-effective with quality features.

All the right core options make Essentials a perfect match with Terrace® and Concensys®. Our personal tower gives you maximum storage in a small footprint. The personal file offers multiple drawer sizes to facilitate organized work and personal storage. Pedestals boost traditional functionality with casters and seat cushion to become mobile storage with a place to sit.

1. Optimum overhead.

Out-of-the-way, adjacent storage for binders, books, and overflow. Dressed for success with fabric-covered doors or designed to complement with painted doors.

2. The power of tower.

Discrete storage with ultimate flexibility. You choose wardrobe on the right or left, two or three drawers, and where to position the shelves. Wardrobe features a coat rod, hook, and shelf. One lock secures the entire unit.

3. A ped with tread.

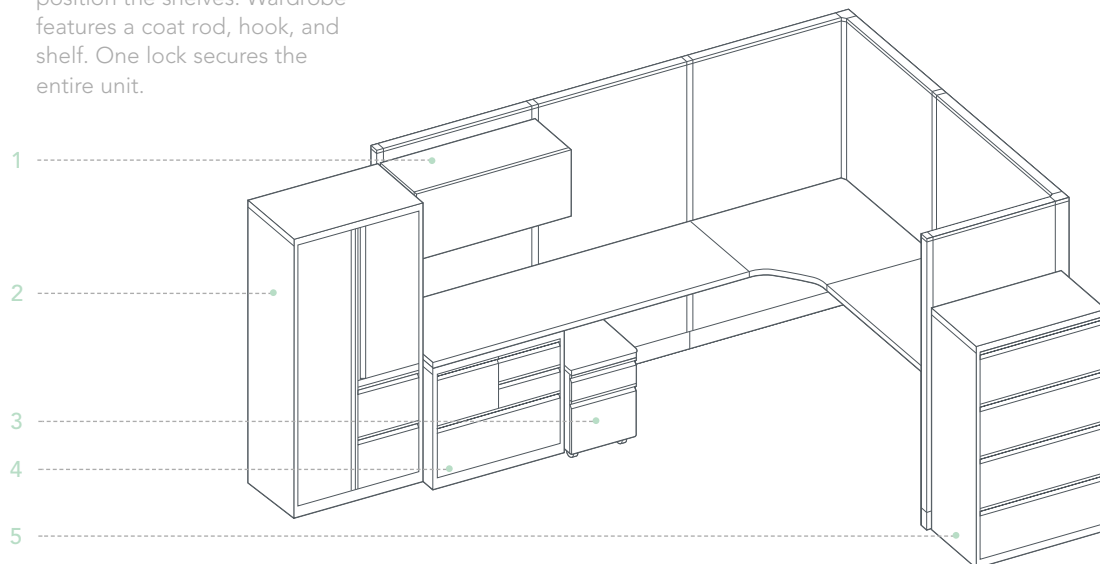

Move it, stow it, or sit on it. Storage you can take anywhere or park at home. Optional seat cushion top makes it more functional than ever before.

4. Always personal.

Doing double duty: lockable, reconfigurable storage that supports your workspace and workstyle.

5. Lateral collateral.

Options for every need and every type of space. Choose the right height and width, and whether to go lateral in the workstation or out. 4- and 5-high models can be specified with an optional pull-out posting shelf.

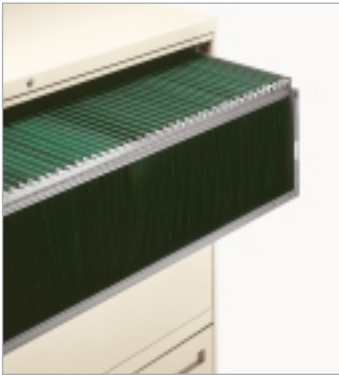

Team players.

Essentials components complement your Allsteel systems setup or just about any existing panel system. The easy, versatile design of Essentials never goes out of style.

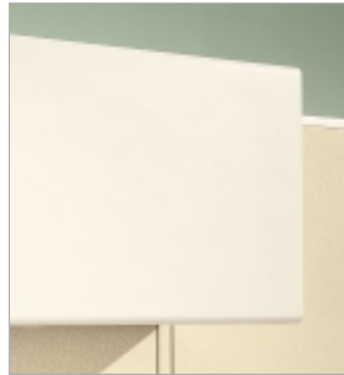

A roll-out shelf behind a receding door provides easy access to the upper reaches of your lateral file storage.

Ball-bearing suspension means Essentials drawers move smoothly and quietly, regardless of the weight of the contents.

Our personal file, featuring small accessory drawers and large hanging file drawers, gives everyone the means to create order.

Painted or fabric-covered overheads are the efficient storage solution.

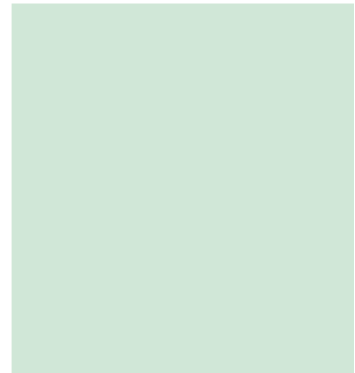

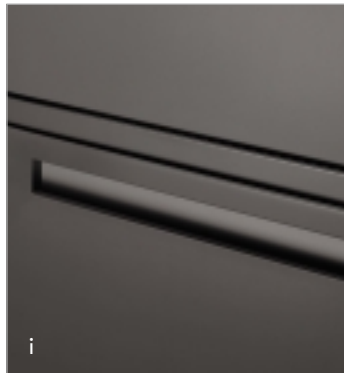

Outfitted with two shelves or up to six shelves, a bookcase provides the practicality of quick-access, open storage.

Pull styles:
beveled and integral.

Seat cushion and laminate tops extend the versatility of mobile pedestals.
