**HUDDLE™**  
Multi-purpose Tables

TABLES THAT  
WELCOME CHANGE

## Huddle Up

In today's office, work happens everywhere: in project rooms, in meeting and learning spaces, in impromptu collaborations where two or three people put their heads together to solve a problem or share information.

Huddle multi-purpose tables let you use the same space for a variety of purposes and make change happen fast. Set up several in a conference room for new employee training at 10:00; reconfigure them for a presentation at noon. Pull one up to a desk for a quick work session with a colleague. Push two against the wall to stage a paper-intensive project.

A wide selection of 16 laminate finishes, 10 base colors, and 3 edge detail options makes Huddle perfectly compatible with any work environment.

## UP FOR CHANGE

Time is money, and space is serious overhead. Huddle multi-purpose tables work with you to make the most of both. No matter which base you specify—heavy duty steel post legs, or lightweight, durable aluminum T-legs or nesting bases—Huddle tables are easy to set up, easy to rearrange, and easy to store away when not in use.

**POST LEG**  
Sturdy and affordable  
(glides or casters)

**T-LEG**  
Unobstructed leg room  
(glides or casters)

**NESTING BASE**  
Space-efficient storage  
(casters only)

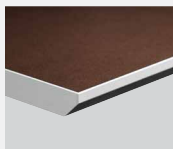

The nesting base allows for space-efficient table storage. The dampened articulation of the hinge mechanism lets the tabletop fold down safely and softly. Modesty panels drop down and out of the way when tables are nested.

## UP FOR ANYTHING

With accessories available to customize tables for specific uses, Huddle supports whatever work you need to do—wherever you need to do it.
