Thistle Frame finish: Tungsten Mica
Arms: Black

Comfortable anywhere.

Tolleson Side lets you coordinate your chairs with your office. Choose from multiple frame finishes and upholstery options, three different back shapes, with or without arms, glides or casters. Designed with a sturdy tubular steel frame, Tolleson Side is a durable choice.

A chair for all reasons.

Tolleson Side fits right in around the conference table or alongside a desk, in the reception area, or out for a meal. Curved arms and high-resiliency foam in the back and seat make for exceptional sitting comfort.

Easy on the eyes.

Three expressive, contoured back shapes—arc, keystone, and square—give you three distinct looks. Casual elegance draws you in; the pleasure of sitting keeps you there.

With optional casters, Tolleson Side becomes a chair on the go. An ideal choice for today's more mobile, fast-paced offices.

Limited storage space is no problem. Stack Tolleson Side five high on the floor or eight high on a cart.

A warm welcome.

Tolleson Side offers an inviting seat for impromptu team meetings, unexpected visitors, invited guests, or anyone else in the relaxed workspace. Comfortable and stylish, versatile and stackable, Tolleson Side is so durable, it looks good while working hard.

Armless models available with glides only.

Ganging brackets available for chair-to-chair applications (RT-CGB).

A word about our designers.

Award-winning designers Tom Tolleson and Greg Saul infused Tolleson Side with richness of form without sacrificing comfort, flexibility, and affordability. It is the perfect "anywhere" chair.

Respecting the environment.

At Allsteel, we help our business partners achieve a positive environmental impact and understand that environmental consciousness can be gainful. This means ensuring that all materials balance performance and sustainability. Strong, high-quality products guarantee years of use and re-manufacturability.
